CV Submission for: PROJECT CONTROL MANAGER

Location: xxxxxxxxxxxxxx

Candidate's Information			
Name:	xxxxxxxxxxxxxxxxxxxxx	Date of Birth:	xxxxxxxxxxxxxxxxxxxxx
Nationality:	xxxxxxxxxxxxxxxxxxxxx	Available to relocate within:	
Experience Summary:	<ul style="list-style-type: none"> ⇒ Handled all phases of Oil & Gas EPC projects through Engineering, Procurement, Project Control, Cost Control, Project Planning, Construction, Testing, Commissioning, Startup and hand over of large plants. ⇒ Having excellent team buy-in skills in managing large multi discipline contracts ⇒ Over 25 years of multi-tasking Experience in Construction of Onshore / Offshore Oil & Gas, Process Plants, Refineries, Petrochemicals, Pipelines and Shutdown Projects. ⇒ Maximum team size handled around 4000 with a project value of 750 Million USD. ⇒ Strong organizational experience with attained proficiency in execution of projects along with consultants & optimizing resource utilization. Skilful in liaising with internal departments & external authorities such as consultants, contractors & Govt. authorities for seamless operations and timely completion of projects. ⇒ Effective man management, communication skills and strong analytical/ problem solving skills. 		

EDUCATIONAL QALIFICATION

Educational Level	Name of Degree	Year of Passing	Major/Area	Class/CGPA/Grade/Percentage
Post Graduation Diploma/Master's				
Graduation/Bachelor's	Bachelor's in Engineering	1987		
Diploma's				

TRAINING INFORMATION

Title	Duration	Training Institute	Year
Certified Project Management Professional - PMP		PMI - USA	
Earned PDUs on EVM and Risk Management			
CITRIX FMS – Fabrication Management System			
Certified on Quality Control: CSWIP 3.1 Reg#: 45117			
T BOSIET Certificate		Abu Dhabi	

SKILL / QUALIFICATION SUMMARY	
Cost Control:	<ul style="list-style-type: none"> • Coordinate cost control team and generate monthly cost control report CCR, and monthly project status report PSR, • Identify the areas, activities which may lead to cost overrun and suggest way forward to control cost, • Monitor design deliverables to control cost start from engineering itself and to avoid gold plating in design, • Opt for additional reviews if the design is found to be robust and costly. • Compare FEED bill of quantities with the detailed engineering output, • Control construction in distribution of materials to avoid scrap, additional work and cost, • Monitor the Man hours allotted for each task, suggest ways to contain the man hours within budget, • Expedite long lead critical procurement items, if required suggest ways to crash the delivery schedule to get these items earlier. • Notify subcontractor delay in advance take corrective action before the slippage occurs, • Plan and deploy the resources in time, remove excess resources which will hinder production and transport.
Planning and Project Control:	<ul style="list-style-type: none"> • Coordinate Schedule development and getting approval from client, • Negotiate Progress Measurement System and weightages with Client/Sub contractors, • Negotiate and fix payment milestones with Client/Subcontractors • Review of subcontractors schedule and approval, • Attend overseas vendor progress meeting for packaged equipment's, • Negotiate contractual conditions, Settlements, Claims with the client/Contractors • Review of procurement management plan and monitoring procurement, • Coordinate subcontractors, monitor their progress, certification of their bills, • Establish and maintain systems, ensure full compliance with the contract requirements for preparation ,verification ,submission, client approval and subsequent invoicing of progress billing, • Identification of Contractual risk and risk management, • Review of monthly / weekly project status, implementation of Preventive and Corrective actions, • Evaluate the Result of Preventive and Corrective actions taken and initiate fall back plans if necessary, • Oversee Logistics planning for shipping large skids, vessels, columns, heavy duty cranes and materials to offshore facilities • Mile stone monitoring and variance notification, • Coordinate with Commissioning and Construction team to achieve Project deadlines,
Cost Budget and Plans:	<ul style="list-style-type: none"> • Recommend the functional budget and monitor functional performance against the budget so that the business is aware of anticipated costs/revenues, areas of unsatisfactory performance are identified and corrective actions are taken
Project Management:	<ul style="list-style-type: none"> • Manage the project controls and contracts in accordance with the project management procedures, • Including planning, Scheduling and schedule analysis, reporting, budgeted cost management, cost forecasting including deviation controls as necessary, • Manage and maintain the project schedule in accordance with the agreed project milestones for the awarded contracts, • Execute successfully the delivery of all project commitments concentrating on

	<p>timescale and budget to promote effective project management in all areas,</p> <ul style="list-style-type: none"> • Supervise planning, cost control, and change control in order to ensure all objectives are met in line with project expectations, • Execute defensive forecasting, analytically assessing situations as they arise ensuring timely and economic completion of projects, • Maintain awareness of team needs, identifying direction and generating realistic objectives through discussions with appropriate managers in order to conserve time and resources, • Network and liaise internally to guarantee synchronization of task execution and responsibilities within project teams, executing independent decisions concerning departmental duties,
Contract Management:	<ul style="list-style-type: none"> • Assist tender preparation for new projects in coordination with project management group, • Managing contracts with vendors and contractors and managing changes • Coordination with program / Senior managers regarding changes in scope and impact on budget,
Management and Strategy:	<ul style="list-style-type: none"> • Develop functional strategy in line with organisational strategy , • Ensure implementation of functional strategy aligned with the vision and mission of the organization, • Manage Effective achievement of functional objectives by setting individual objectives, recruiting right people for the right job, developing and managing performance
Engineering:	<ul style="list-style-type: none"> • Act as an interface between Engineering, Procurement, construction and subcontractors, • Track Engineering and procurement team in line with the agreed schedule for the timely delivery of long lead items and equipment • Expertise in plant and equipment layout designing • Conflict management in Structural, Mechanical, Piping and E & I
Construction:	<ul style="list-style-type: none"> • Executed Cross Country pipeline project, Process piping, erection of static equipment's, rotary equipment, structural steel, E & I Works, • Interface coordination for testing and testing schedule management, • Expertise in leading large construction team, • Transportation / Shipping /Erection of Large Vessels in Offshore Facilities, • Familiar with system/subsystem-based project tracking using WINPCS,
QA/QC:	<ul style="list-style-type: none"> • Ensured project Documentation Completed in a satisfactory and timely manner including dossiers, test packs, check sheets • Enforced strict compliances with all QA / QC and safety procedures, • Preparation and Review of Test packs/dossiers, • To do final line walk and certification with TPI Agencies,

EXPERIENCE SUMMERY

Position	Duration	Employer	Project	Country
#1. PROJECT CONTROL MANAGER	Nov -2016 to Jul-2018	Dodsai Engineering & Construction Pvt Ltd; CLIENT: Abudhabi Company for Onshore Oil Operation ADCO	Rumaida Shanayel NEB III Development Project	Abu Dhabi, UAE
Project Experience:	EPC for Ra/Sn Facilities includes 287 KM cluster Pipelines, Main oil lines, BVS, NMS, Central Processing Plant, 17 Clusters & associated well heads, 49 GL wells and WI / WD / WS wells.			
#2. PROJECT CONTROL MANAGER	July-2015 to June 2016	Petromar-Interoil Consortium, Angola- Ambriz	Various Oil & Gas Offshore Projects, Angola	Angola
Project Experience:	<p>Project#1: KAOMBO Block 32 Development Project; CLIENT: Total E & P Angola Block-32 – Secursel</p> <p>To convert 2 VLCC to FPSO (North & South), SOW includes EPSCC of 18 Suction Anchor Piles, 2 Modules and 2 Boat Landing Platforms and Structures, [Angolan Content]</p> <p>Project#2: Eni East Hub Development Project, Block 15/06; CLIENT: ENI Angola SPA</p> <p>EPSCC of – Plets, ILT’s and Manifolds</p> <p>Project#3: Mafumeira South and Central Processing complex and well head Platforms;</p> <p>CLIENT: Chevron -Daewoo Ship Building and Marine Engg – DSME</p> <p>EPSCC of Sul & Centro Jackets and Piles</p>			
#3. PROJECT CONTROL MANAGER	Jan 2011 to July 2014	GALFAR Engineering & Contracting WLL. Emirates CLIENT: #1 Zakum Development Company [ZADCO] #2 Abu Dhabi Company For Onshore Oil Operation [ADCO] Petrofac International Ltd	Project Name:	Various Oil & Gas Projects, UAE
Project Experience:	<p>Project#1: PWT Facilities at Zirku Island, SFFD</p> <p>Project Includes Engineering, Procurement, Installation testing, Commissioning and startup of two trains of Produced water treatment units at Zirku offshore facilities</p> <p>Project#2: ASAB Full Field Development Project</p> <p>MEI Works on RDS’s, Well Heads, Water injection clusters, Tie ins in ASAB field and AB CDS</p>			
#4. PROJECT CONTROL MANAGER	Jun 2009 -Oct 2010	Uhde Bangladesh Private Ltd. BGD; CLIENT: Reichoold Pvt Ltd	Project Name:	Unsaturated Polyester Resin Plant Project
Project Experience:	Engineering, Procurement, Construction and commissioning of Unsaturated polyester resin plant, includes tank form, all utilities, Process Building , Reactors, Material handling and Automated, Filling facilities,			

#5. Project Control Manager	Nov 2006 to Mar 2009	Gulf Petrochemical Services And Trading Llc Oman; CLIENT: M/S Petroleum Development Oman Llc	Project Name:	Various Oil & Gas Projects in Oman
Project Experience:	Project#1: Marmul Central Development Project - Phase II. Construction of Marmul Gas oil separation plant ,Deep well disposal system and modification of five gathering stations Project#2: Haban Field Development Project includes 127 Km cluster, gas pipelines of 16" , 12" , 8" , 6" with 12 wellheads , 4 Manifold Stations, one common Receiving Station.			
#6. Senior Planning Engineer (Shut Down)	Jan 2006 – Apr 2006	Almeer Technical Services Co Llc Kuwait; CLIENT#1 Equate Petrochemical Company Kuwait #2 Kuwait National Petroleum Company Kuwait	Project Name:	Various Oil & Gas Projects in Kuwait
Project Experience:	Project#1: Equate Turnaround – 2006 Modification of piping /Equipment's Project#2: General Refinery Turnaround –2006 KNPC Piping Modification with Automation of Plant by Installing ROIVs			
#7. Planning Engineer	Jan 1998 – Nov 2005	Mc Connell Dowell Australia Pvt Ltd	Project Name:	#1. Ashuganj – Bakhrabad Gas Pipelines Project #2. Sangu Gas Field Development Project
Project Experience:	#1. 42" pipeline 82km Gas transport from Ashuganj to Bakgrabad under PetroBangla/GTCL (Gas transmission Co Ltd) in Bangladesh #1. Sangu Gas Field Development and Processing Plant			
#7. Site Engineer	Mar 1991 to Oct 1997	Mohammadi Engineering & Fabrications Ltd.	Project Name:	
Project Experience:	Fabrication and Supply of Structural works, Vessels, Packaged Equipment Skids, Ducts Etc,			

OTHER INFORMATION

Computer Skills:	Project Planning Software's - Primavera & MS Project
Language Proficiency:	English, Arabic (Basic)
Countries Worked:	India, Kuwait, Oman, UAE, Angola
Years of Experience:	25 years, 11 years as Project Control Manager, 20 years in Oil & Gas
Availability:	Immediate, 20 days notice time
Expected Salary:
